Short Bio

Master's student in Finance at Catholic University of the Sacred Heart (UCSC) in Milan, currently undertaking an exchange semester at Kozminski University in Warsaw. Strongly interested in investment banking and capital markets, I have built solid skills in financial modeling, quantitative analysis and risk assessment, supported by a data-driven approach to solving complex financial problems. Fluent in Italian and English, I thrive in dynamic and multicultural environments. Motivated and results-oriented, ready to grow within the financial industry.

Education

Work Experience and Extra-curricular Activities

Equity Research — CFA Research Challenge 2025 *Rome/Milan, IT*
CFA Society Italy *Nov 2024 – Feb 2025*

Participation in the CFA Research Challenge 2025 with the Sapienza University team, conducting an in-depth analysis of Industrie De Nora S.p.A., listed on the Italian Stock Exchange. Developed skills in:

- Equity Research: conducted in-depth analysis of De Nora S.p.A., evaluating financial performance, industry trends and competitive positioning (analyzed 10+ financial statements)
- Valuation: applied DCF, comparables and precedent transaction analysis to determine the intrinsic value
- Teamwork: worked in a diverse team to deliver an equity research report under tight deadlines

This is an annual university challenge (focusing on company valuation) hosted by the CFA Institute.

Administration and Accounting intern *Salerno, IT*
RGE Associated (Insurance Agency) *Sep 2022 – Sep 2023*

Managed financial records, processed invoices and reconciled accounts to ensure accurate bookkeeping. Assisted in preparing financial reports and handling administrative tasks to support the daily operations of the insurance agency. Collaborated with the team to maintain compliance with accounting standards and insurance regulations.
